

Ayden Kyseth Lytle

60 Cedar Street, Brooklyn, NY - (347)940-4233 - Aydenlytle@gmail.com

Education: Fashion Institute of Technology, Manhattan NY →
AAS Interior Design - Dean's List: 3.7 GPA. Fall 2025 - Expected Graduation Spring 2027

Relevant Course Work: Design Fundamentals - Drafting and Rendering (by hand and digital) - Spatial Design - Materials and Finishes - Color and Design Theory - Presentation Graphics

Software Skills: Rhino 8 - Enscape - Adobe Photoshop, Illustrator, InDesign - Microsoft Office

Design Skills: Space Planning, Site Research, Hand Drafting, Presentation Books & Boards, Materials & Finishes Research, Furniture & Fixtures Selection, ADA Fundamentals & General NYC Code, Rendering, Physical Model Construction

1st-Year Projects:

Conceptual Loft Apartment Design, 1st Semester - With the restriction of using Sol LeWitt's *Open Cubes* as structural components of the design within existing conditions; created a residential loft built around a fictional client's needs. Introduced to design processes, diagraming, concept development, 3d modeling & rendering, materials, furniture, and fixtures specifications.

Existing Apartment Combination Design, 2nd Semester - Re-drawing floorplans to suit a fictional client's needs, aesthetically tailored to a collection of artwork to be displayed. Introduction to ADA compliance, further design process & production practice.

Pop-Up Store Conceptual Design, 2nd Semester - Creating a modular pop-up storefront with the requirement of using a crowd-funded product / brand. Introduction to commercial design, interactive spatial design, consumer interactions, marketing & sustainability considerations within design. Further development of design process & production practice.

NYC Public Restroom Conceptual Design, 2nd Semester - Creating a public restroom within NYC where there is an apparent need for construction / improvement on existing facilities. Further understanding ADA - and other accessibility - compliance within code, furniture and fixtures. Further development of short-format design process & production.
